The Real Estate Marketing Problem

Traditional marketing methods and escalating costs are slowing real estate companies down – making it harder to compete and grow.

Confusion

Buyers struggle to visualize empty or under-construction properties.

Dullness

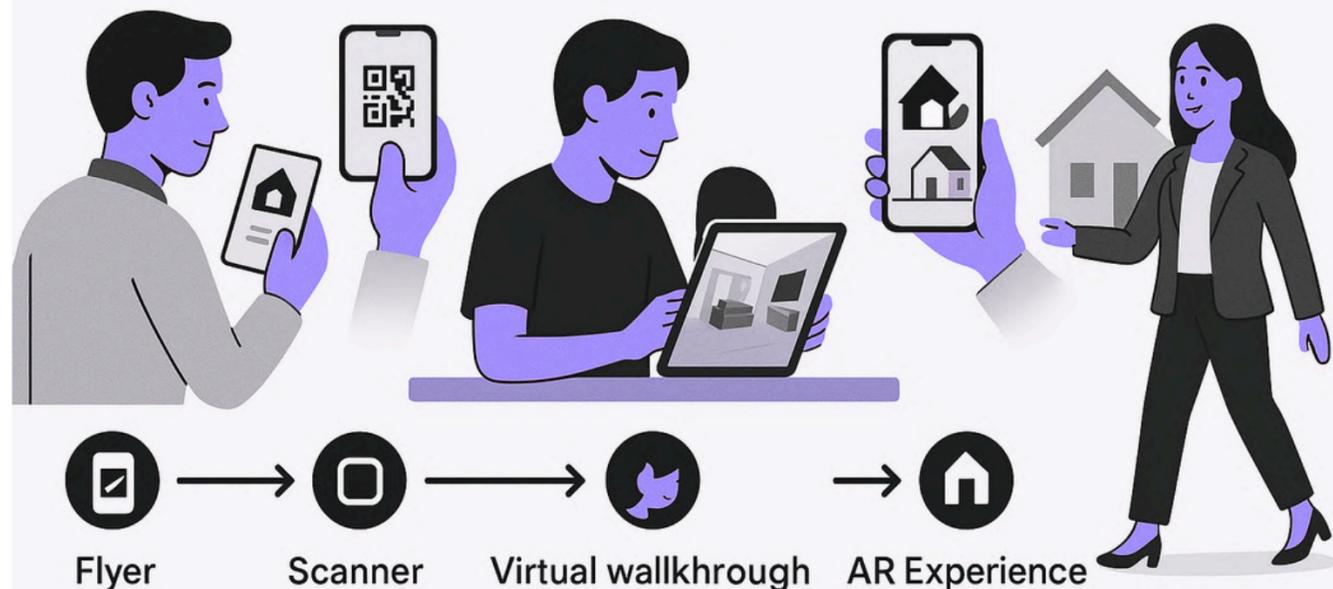

2D floor plans & brochures don't convey space, vibe, or aesthetics.

High Costs

Developers spend heavily on marketing with limited differentiation.

Buyer Journey Reimagined

From Site Visits to Virtual Walkthroughs

No travel, no scheduling – buyers explore properties anytime, anywhere with immersive 360° tours.

From Guesswork to Augmented Reality

AR brings designs into the real world, letting buyers visualize spaces in their own environment.

From One-on-One Sales to Shareable ExperiencesAR

Instantly share stunning visuals and walkthroughs – empowering faster, collective decision-making.

From Static Marketing to Personalized Journeys

Interactive 3D, video, and VR experiences tailored to each buyer's lifestyle and aspirations.

RealtyXperience by 360 Space

A Unified Solution For All Your Needs

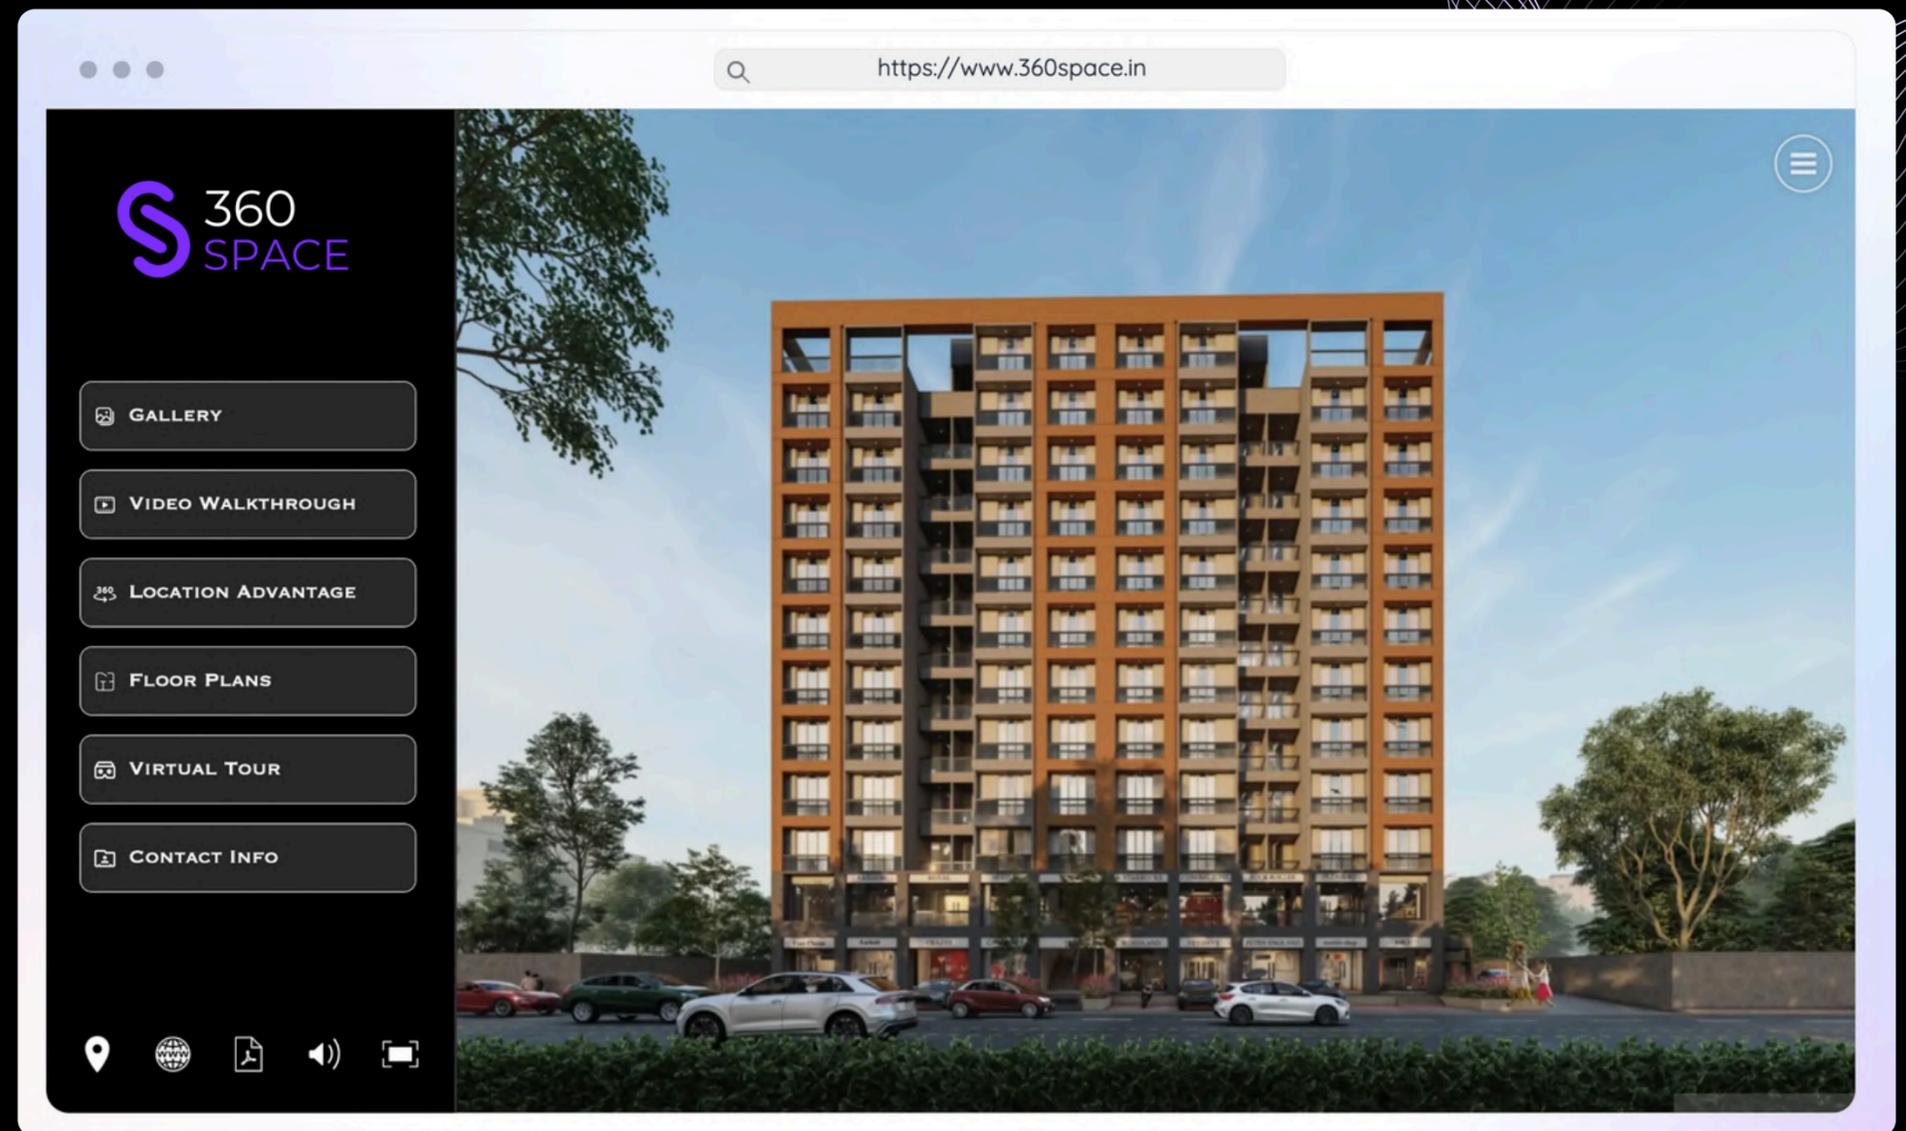

RealtyXperience is an all-in-one digital suite for real estate marketing and sales, combining AI-powered 3D renders (SceneAI), immersive property showcases (ImmersiView), print-to-AR experiences (SnapAR), CGI-enhanced site visuals (Horizon CGI), and real 360° scans with virtual tours (Real360). Together, they help teams present, promote, and sell properties faster and more effectively.

A large, stylized yellow 'X' logo on a black background, with the word 'REALTYXPERIENCE' in white capital letters below it.

REALTYXPERIENCE

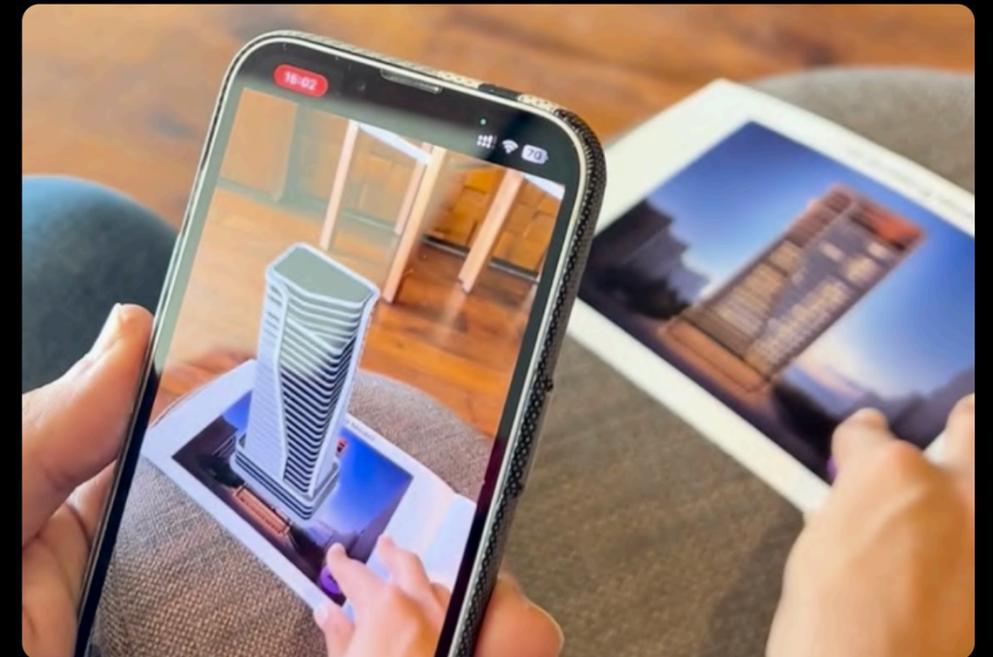

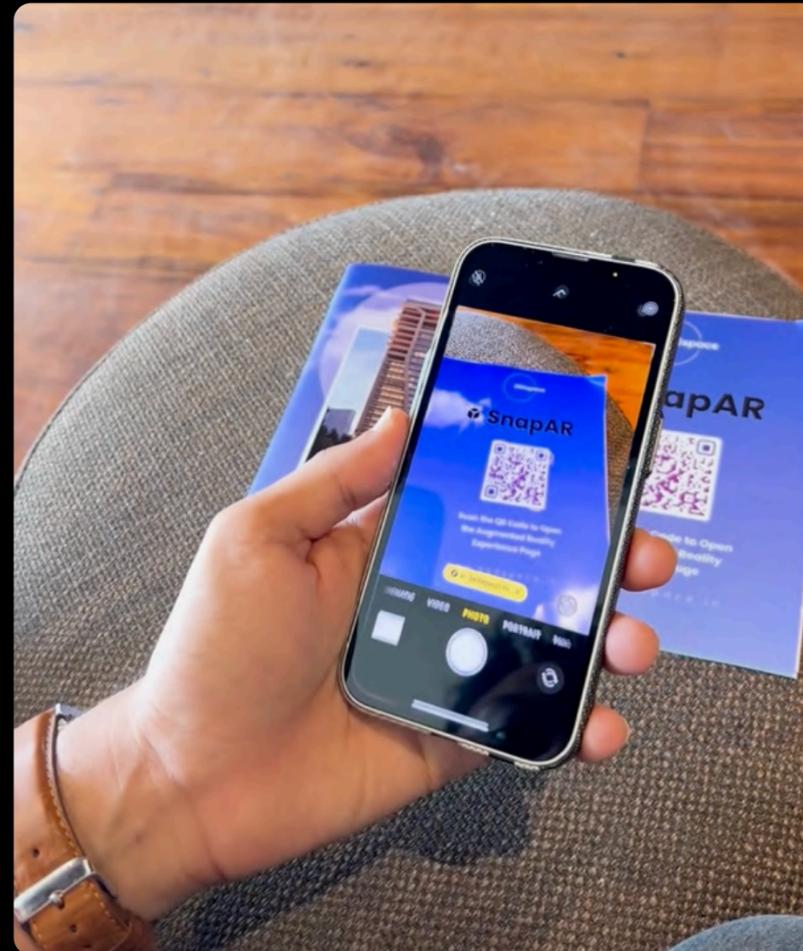

ImmersiView

ImmersiView is an interactive property presentation tool that brings all project details into one seamless, device-friendly experience. It combines videos, images, 360° views, floor plans, and demo flat walkthroughs with powerful features like location advantages, floor-wise unit views, amenities, and proximity highlights. Ideal for mobiles, tablets, and large screens, ImmersiView helps real estate teams deliver engaging, informative presentations that let buyers explore and understand projects in depth—anytime, anywhere.

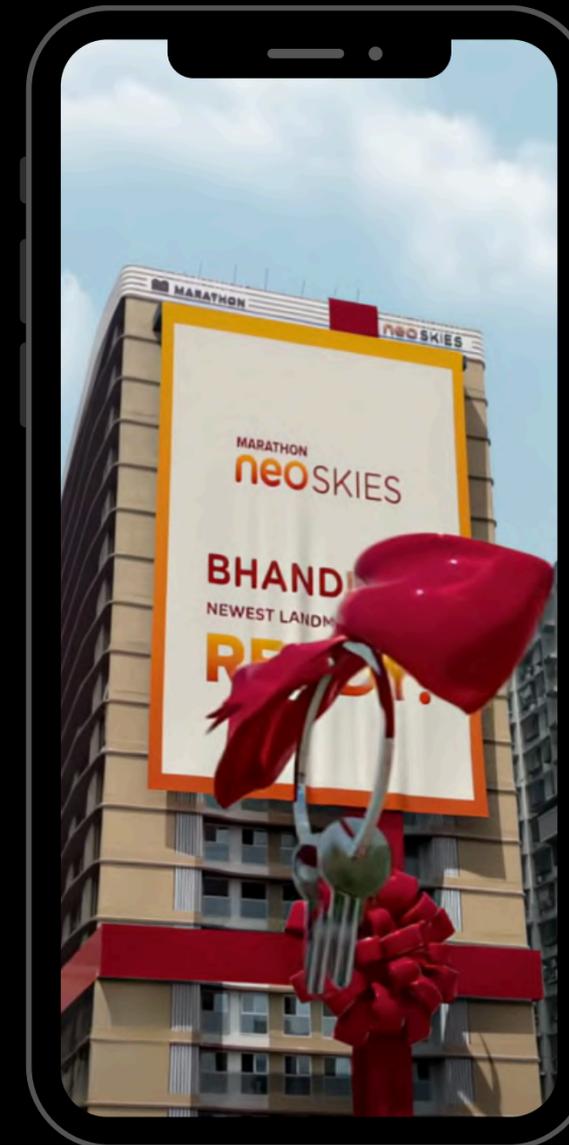

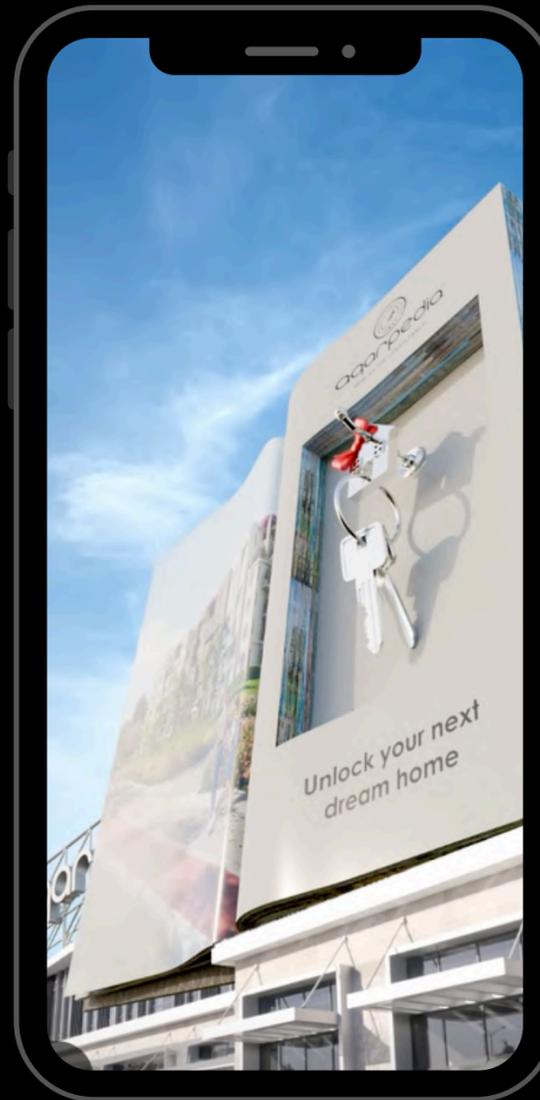

SnapAR

SnapAR is a web-based mixed reality solution that transforms traditional print materials—like brochures, flyers, and newspaper ads—into interactive digital experiences. With a simple QR code or link and no app download, users can instantly view videos, 3D models, floor plans, and interactive elements overlaid on the real world through their mobile browser. Designed to bridge offline and online engagement, SnapAR turns every printed asset into a dynamic, immersive selling tool—perfect for real estate, interior design, and marketing teams

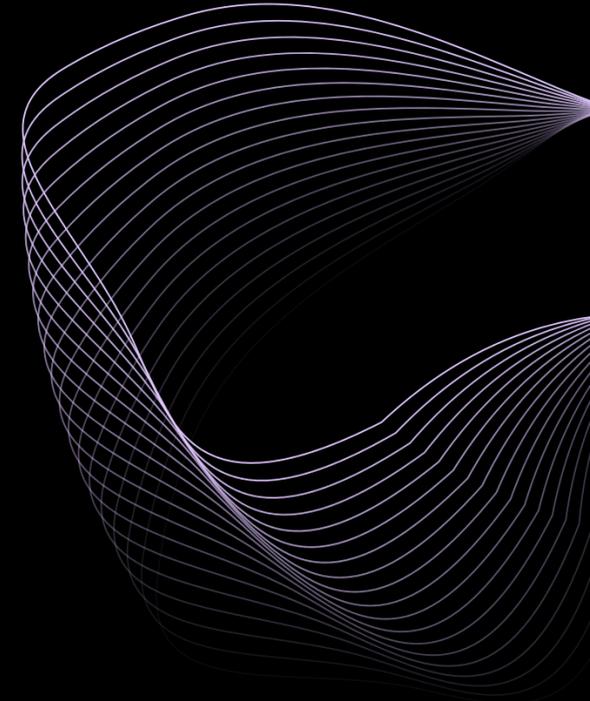

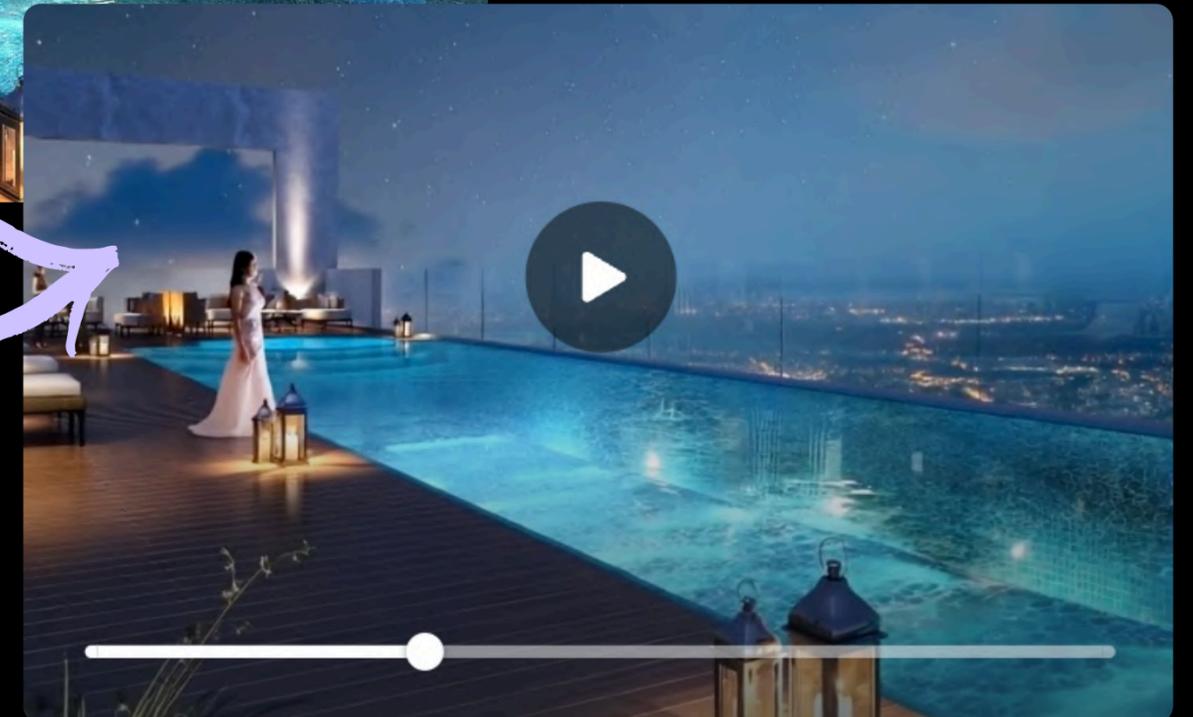

HorizonCGI

Horizon**CGI** is a powerful visualization tool that blends 3D models and architectural designs directly into real-world site footage, creating highly realistic, cinematic previews of future developments. Using advanced CGI and motion tracking, it showcases how buildings, landscapes, or interiors will look in their actual environment—capturing scale, lighting, and surroundings with precision. Ideal for real estate developers and marketers, HorizonCGI brings unbuilt projects to life, helping buyers and stakeholders visualize the final outcome with clarity and confidence

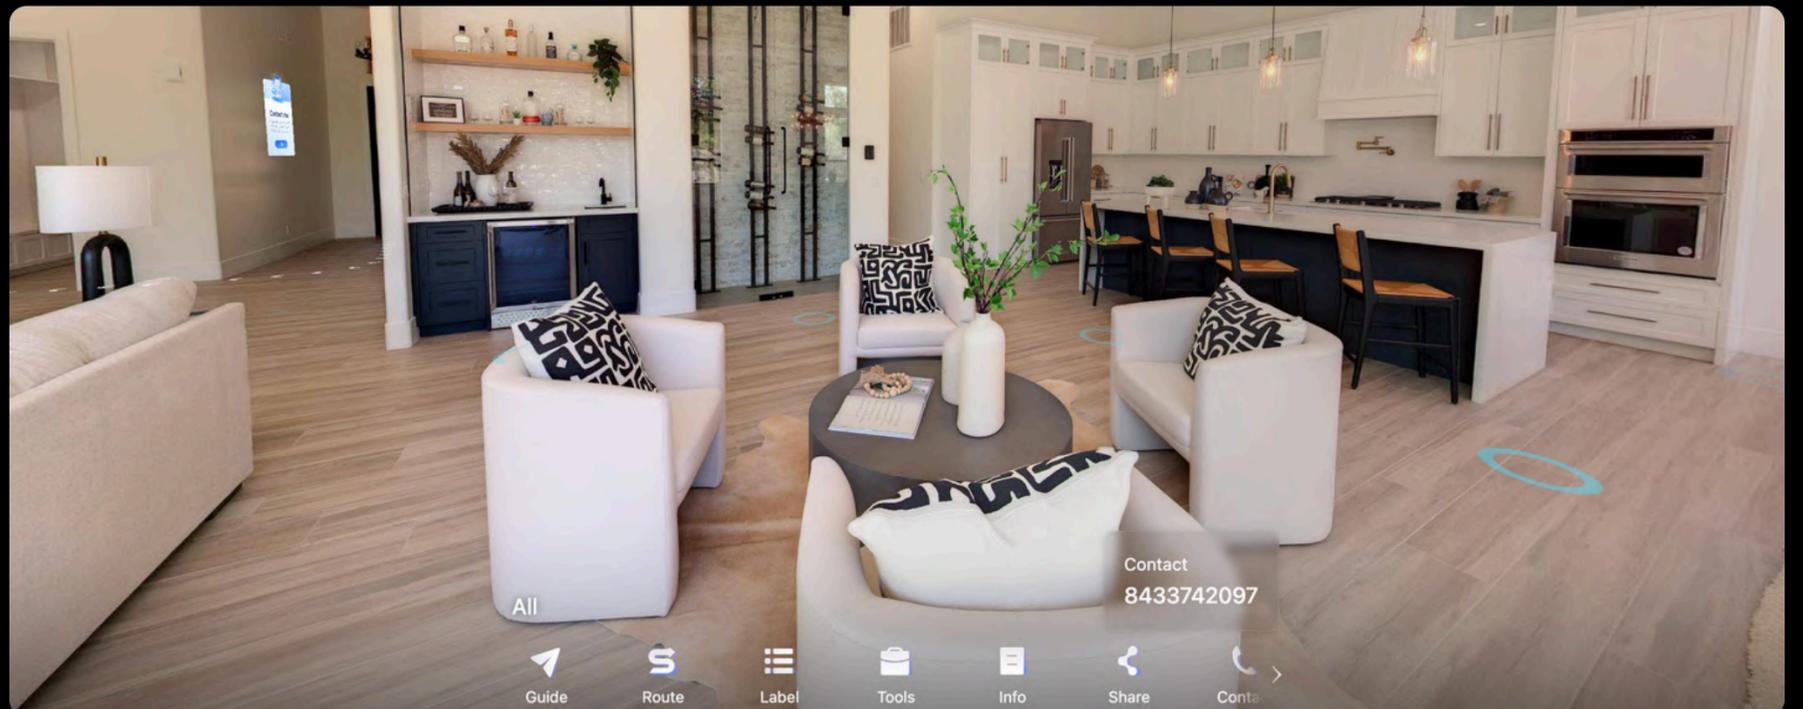

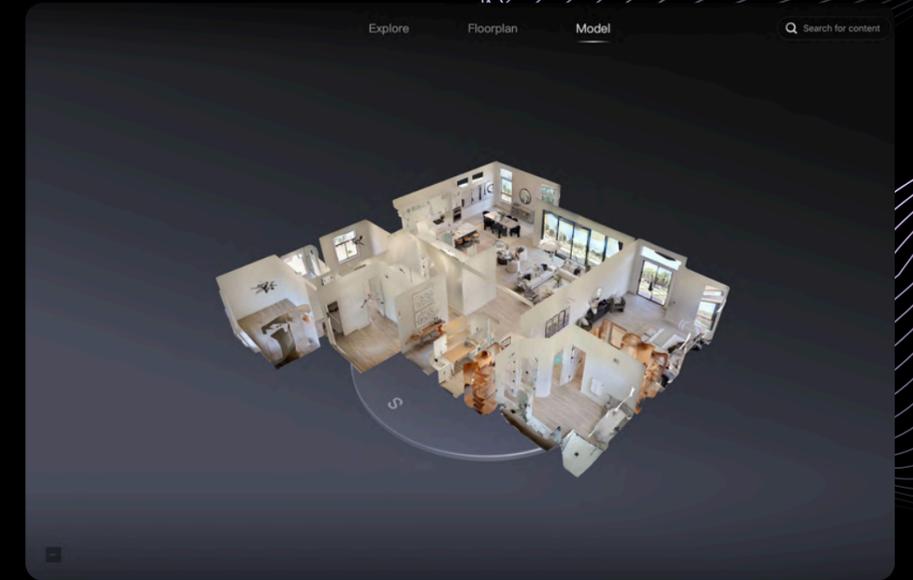

SceneAI

SceneAI is an AI-powered rendering tool that transforms floor plans, sketches, or reference images into high-quality 3D renders and animations—quickly and cost-effectively. Designed for real estate, interior design, and architecture professionals, it automates complex visualization tasks, delivering photorealistic outputs. Whether it's a furnished room, exterior facade, or entire walkthrough, SceneAI streamlines the creative process, making it easy to generate stunning visuals that accelerate decision-making and enhance client presentations.

● Real360

Real360 is a professional 360° scanning and virtual tour solution that captures real spaces with stunning clarity and detail. Ideal for showcasing ready properties, demo flats, showrooms, or office spaces, Real360 creates immersive walkthroughs that buyers can explore anytime, from anywhere. Integrated with hotspots, floor plans, and multimedia elements, it provides a true-to-life experience that builds trust, saves site visit time, and accelerates decision-making – all accessible across mobile, tablet, and desktop without any app download.

Thank You

Thank you for your attention! We look forward to collaborating.
